## Tourism Ireland welcomes +7.8% growth in overseas arrivals Jan-August 2018

Latest figures from the CSO indicate that overseas arrivals continue to grow, up almost +8% for the period January-August this year. Growth was recorded from all market areas, with North America +13.2%, Mainland Europe +10.5% and Rest of World +5.3%. While Great Britain also grew by +2.5%, it is too early to say if this represents a turnaround in the long-term trend, so the impact of Brexit on outbound travel from Britain remains a concern.

Tourism Ireland's autumn campaigns are under way in markets around the world, to boost late season holidays and tee up travel in the early part of 2019.
