Tourism Ireland welcomes +7.8% growth in overseas arrivals Jan-July 2018

Latest figures from the CSO confirm that overseas arrivals continue to grow, up almost +8% for the period January-July this year. Growth was recorded from all market areas, with North America +13.5%, Mainland Europe +10.6% and Rest of World +4.1%. While Great Britain also grew by +2.5%, it is too early to say if this represents a turnaround in the long-term trend and the impact of Brexit on outbound travel from Britain remains a concern.

Tourism Ireland's autumn campaigns are kicking off in markets around the world over the next few weeks to boost late season holidays and tee up travel in the early part of 2019.
