HOW DID THEY SPEND THEIR MONEY?

The overseas revenue generated on the island of Ireland reached record levels €5.3/£4.3 billion, breaking the 2015 record. This is the second record year in a row for both Northern Ireland and the Republic of Ireland.

HOW MANY NIGHTS DID THEY STAY?

A record 78.3 million overseas bednights were recorded in 2016, that is a +20% increase in the last 10 years.

Quarter 3 (July–September) remains the busiest quarter, especially in terms of holiday nights. Greatest volume growth in bednights was recorded in Q3 in 2016. All accommodation types benefitted from this growth with the exception of Hotels which recorded a slight decline in Q3. The average length of stay of 7.6 nights remains unchanged since last year, but is down from a peak of 8.3 nights in 2010.

Those travelling further tend to stay longer (other areas visitors stay on average 14.9 nights compared to GB visitors who stay on average 4.8 nights). This is true across all visitor types.

Average length of stay is inflated by those here for reasons other than holidaying (6.6 nights), visiting friends and/ relatives (7.1 nights) and business reasons (6.3 nights). These 'other' reasons have an average stay of 28.0 nights and include those who come to learn English as a foreign language (English language training).
